RE: Certification Regulations for Public Comment

As part of its strategic plan and Race to the Top commitment, the Rhode Island Department of Education has revised certification requirements for initial certification and renewal. Over the past several months RIDE has conducted a comprehensive review of its current regulations as well as best practices nationwide, and has convened many constituent groups for input and feedback as these regulations were drafted.

Certification regulations are one of the critical strategies for ensuring excellence in Rhode Island schools. These regulations are updated so that the requirements and procedures that govern educator certification in Rhode Island both consolidate all Board of Regents regulations related to educator certification and align to processes and procedures that will establish excellent educators in our state.

Therefore, I RECOMMEND THAT, the Rhode Island Board of Regents for Elementary and Secondary Education approve, for the purpose of public hearing, the Board of Regents Regulations Governing the Certification of Educators in Rhode Island.

SUBJECT: Draft Certification Regulations

In preparation for our September 1st meeting, attached is the draft certification regulations for your review. Appendix 1 is a summary of the changes to regulations that may help you focus your reading of this lengthy document. As you recall from our last meeting our plan is to ask for your vote to bring these regulations to public hearing in anticipation of voting for their adoption in December.

We also welcome any questions in advance of the September 1st meeting so that staff can research and prepare responses. Please send your questions to me and I will be sure to send them to the team working on certification. Finally, we know that there is some concern that the new regulations do not attend to ongoing professional development as part of the renewal process. I want to assure you that this is not the case. We've included language from the Educator Evaluation Regulations that specify the requirement for ongoing professional development of all educators. We've also attached relevant sections of the *Guide to Evaluating Building Administrators and Teachers* to provide you with examples of how this element of the regulations is being implemented within the context of the evaluation system.

Thank you in advance for your careful review of these important regulations. We look forward to the discussion next week.

Rhode Island's Educator Evaluation Standards

Standard 2

Standard 2: District evaluation systems **emphasize the professional growth and continuous improvement of *individual educators***' professional practice to enhance student performance.

1. Educator evaluation systems establish a cyclical process that includes the collection and analysis of information about an educator's performance, the establishment of individual goals for professional development based on the analysis, and the improvement of performance as a result of that professional development.
2. Educator evaluation systems assure that all educators receive detailed feedback on their performance and recommendations for professional growth.
3. Educator evaluation systems create expectations that educators analyze their own professional practice by considering feedback from supervisors, colleagues, students, and parents/guardians, confer with supervisors about their performance and use recommendations for professional growth in developing professional development goals.
4. Educator evaluation systems collect and analyze data about individual professional development needs and identify patterns within schools and across the district to inform the development of a coherent district staff development plan.

RHODE ISLAND EDUCATOR EVALUATION MODEL
Guidance on planning profession growth goals

How to Support the Development of Strong Professional Growth Goals

- Prior to setting Professional Growth Goals, the educator should review any prior evaluation data and complete the **Teacher Self-Assessment Form** found on page 145 of this guide.
- Professional Growth Goals should align with competencies in the Teacher Professional Practice and Professional Responsibilities Rubrics and evaluation feedback. This will ensure that each goal is geared toward increasing teacher effectiveness.
- **Good goals should be specific and measureable.**
 - E.g.: "Plan for and conduct at least three department meetings and lead at least one professional development session" instead of "Become a teacher leader."
- **When possible, the evaluator should assist teachers with the development of action steps for each goal.** What development opportunities already exist within the school that might help the teacher meet his or her goal? Can they observe or shadow a teacher down the hall? Does the school have a library of resources that could be loaned to members of the staff?
- The evaluator should pay attention to the benchmarks in the Professional Growth Plan and how these align with the plan for any school-wide professional development. Will it be possible to monitor this teacher's progress toward his or her goals? Are these realistic deadlines for the teacher?

Teacher Self-Assessment Form

Name:			
School:		District:	
Grade Level(s):		Subject(s):	
Date Developed:			

The purpose of the Self-Assessment is to allow educators to reflect on their practice, identifying their own professional strengths and areas of development. Your Self-Assessment will lead directly into the development of your Professional Growth Goals. Before completing the Self-Assessment, review any prior evaluations (especially last year's), including feedback from your prior evaluation, as well as the competencies in the Teacher Professional Practice Rubric and Professional Responsibilities Rubric. The areas of strengths and areas of development should be aligned with competencies in these rubrics.

Self-Assessment— Professional Practice

Using the Teacher Professional Practice rubric, for each domain identify at least one competency as a strength and at least one as an area for development. Using previous evaluations and any other relevant information, provide a rationale for why you chose these competencies.

Professional Practice Strength (EXAMPLE)		Professional Practice Area for Development (EXAMPLE)	
EXAMPLE - 1c	<p>EX: On my previous evaluation, I earned an "Exemplary" rating on this competency with my evaluator commenting that "Nearly every student in the classroom is engaged in their work but not all are working on the same thing. The level of student choice in your class is impressive - it is clear that they find meaning in their work".</p> <p>Also, in my end-of-year student surveys last year, 90% of my students reported that they felt connected to the topics in class and 87% reported that they felt they had choices in their learning activities. This is something I spent a great deal of time working on last year and was the focus of one of my professional growth goals.</p>	EXAMPLE - 1c	<p>EX: On my previous evaluation, I earned an "Emerging" rating on this competency. My evaluator commented that "Many students are reading books that are either too difficult or not challenging enough. Several opportunities exist to connect students to the curriculum through available technology but are not being utilized."</p> <p>In addition to my evaluator's comments, I know that I can do a much better job of matching students to text using lexile ratings. Using our new SRI computer program, I can update student reading levels regularly and use them to better individualize reading materials.</p>

Teacher Self-Assessment-- Professional Practice

Domain	Professional Practice Strength	Professional Practice Area for Development
Domain 1 Planning and Preparation		
Domain 2 Classroom Instruction		
Domain 3 Classroom Environment		
Domain 4 Assessment, Reflection and Improvement		

Self-Assessment – Professional Responsibilities

Identify at least two competencies from the Educator Professional Responsibility Rubric that are strengths and at least two that are areas for development. As with Professional Practice, use prior evaluations and other data to provide rationale as to why you selected these competencies. You do not need to identify a strength and development area for each domain in the Professional Responsibilities Rubric; you must only identify two strengths and two areas for development overall. Record the areas for development and strengths in the appropriate box based on the competencies to which they align.

Domain	Professional Responsibilities Strength	Professional Responsibilities Area for Development
Domain 1 Collaborate and Contribute to the School		
Domain 2 Believe In & Advocate for Students		
Domain 3 Create a Culture of Respect		
Domain 4 Exercise Professional Judgment		

Self-Assessment Narrative

Please respond to each of the following prompts below.

1. **Prioritize.** Review the six (or more) areas of development identified in your Self-Assessment (at least four in Professional Practice and at least two in Professional Responsibilities). Reflect on your professional growth over the last year and prioritize these six areas of development that are most important for your professional growth and will yield the best outcomes for your students.

1.	
2.	
3.	
4.	
5.	
6.	

2. **Summarize.** Briefly summarize the *top three* priority areas of professional growth that you plan to focus on in the coming year in two paragraphs or less. Explain why these are your priority areas of growth and how focusing on these development areas will help you improve as a professional. These areas of development will be the basis of the Professional Growth Goals in your Professional Growth Plan.

--

3. Is there anything else about your role as an educator this year that you feel is important to share with your evaluator (new assignment, change in curriculum, etc.)?

Setting Goals with Primary Evaluator

The Primary Evaluator will assist the educator in setting specific and measurable Professional Growth Goals for the year. The Beginning-of-Year Conference in the beginning of the year is a time for the educator and primary evaluator to discuss and finalize goals and identify appropriate sources of professional development to help the educator meet those goals. Although districts may offer professional development opportunities that overlap with the educator's Professional Growth Goals, each educator is personally responsible for improving their own practice and achieving their own goals.

When to Revise the Professional Growth Plan

The Mid-Year Conference provides a formal opportunity for the educator and evaluator to discuss the Professional Growth Plan. If a Professional Growth Goal has been met before the end of the first semester, the educator should identify a new goal based on the priorities in his or her Self-Assessment and/or needs identified by the evaluator. If, at the end of the year, a Professional Growth Goal is still in the process of being achieved, and the educator and evaluator feel as though it is important for the educator to continue working toward the goal, the educator can keep the same goal for up to one additional year. If, at the end of the second year, the goal is still not met, it should be revised such that the action steps will better lead to the goal being met (given the goal remains relevant).

Professional Growth Goals

Record three Professional Growth Goals below. Your goals should be specific, measurable and aligned with specific competencies within the evaluation rubrics. Rank your goals in order of priority, recognizing that each goal is important. On the following pages, complete the Professional Growth Plan form for each goal.

DIFFERENCES BETWEEN PROPOSED AND
EXISTING CERTIFICATION REGULATIONS**

1. Purpose

Pursuant to Section 16-11-1 of Rhode Island General Laws the educators in Rhode Island public schools are required to attain certification. Pursuant to Section 16-60-4 of the Rhode Island General Laws the responsibility for setting regulations for certification rests with the Board of Regents for Elementary and Secondary Education. The purpose of these regulations is to update the requirements and procedures that govern educator certification in Rhode Island and to consolidate all Board of Regents Regulations related to Educator Certification. These regulations detail a comprehensive redesign of the certification system that will go into effect as the Department of Education creates supports necessary to implement the revisions. All changes to regulations are effective 01/01/2012 except for new provisions that will be phased in as noted by effective dates within the text of the regulations.

The Rhode Island Department of Education's (RIDE) 2010 Strategic Plan established the revision of certification as a critical strategy in achieving the goal of ensuring educator excellence throughout Rhode Island. RIDE began the process of redesign with a comprehensive review of current certification regulations and has revised the regulations to more closely align certification with student achievement

and other evidence of effective educator performance. These regulations also streamline certification to ensure that all certificates are designed to improve student achievement and create a system of certification that opens pathways for career advancement. This set of regulatory changes brings all previous sets of regulations and revisions made as a result of this update together into one set of regulations governing certification.

2. Definitions

requires holding a teaching certification area will not be renewed. Additionally, if a teaching area certification is not renewed due to performance any administrator certifications that the educator holds will not be renewed.

8.2 Preliminary Certificates [Effective 01/01/2015]

Preliminary certification is awarded to candidates who are not eligible for full certification, but who have met specific criteria that qualify them to serve as educators of record while completing all certification requirements. The Department of Education issues the following six types of preliminary certificates: Alternate Route Preliminary Certificate; Career and Technical Education Preliminary Certificate; Emergency Preliminary Certificate; Expert Residency Preliminary Certificate; Temporary Initial Educator Preliminary Certificate, and Visiting Lecturer Preliminary Certificate.

All preliminary certificates will be issued for one year and share a common expiration date of July 31.

Educators may not be assigned to positions out of their certification areas. When employing agencies are unable to find qualified personnel, preliminary certificates, especially Alternate Route Preliminary Certificates, Career and Technical Education Preliminary Certificates, Expert Residency Preliminary Certificates, and Temporary Initial Educator Preliminary Certificates provide a basis for identifying the most qualified personnel for these vacancies.

Employing agencies that hire educators working under a preliminary certificate shall evaluate and provide meaningful support to these educators.

A person who holds a preliminary certificate is not “fully certified.” Employment under the authority of a preliminary certificate does not constitute teaching service for purposes of the teacher tenure probationary period.

Board of Regents Standards for Alternative Route to Certification Programs

Purpose – In order to insure that every child is served by well prepared educators in both professional expertise and content area knowledge, the Rhode Island Department of Education may approve alternative educator preparation programs. Programs may be designed to serve any of the following purposes:

Meet the demand for qualified teachers in high need certification areas

Recruit teachers to staff schools in high need local education agencies (LEAs)

Increase the number of qualified candidates from groups that are underrepresented in the Rhode Island teaching force

Provide rigorous, high quality preparation through an expedited track to certification

Attract highly motivated individuals who bring subject matter expertise to the profession

STATE OF RHODE ISLAND
REGULATIONS
of the
BOARD OF REGENTS FOR ELEMENTARY AND SECONDARY EDUCATION

Definitions –

1. Alternative educator preparation program – a program that provides preparation to educator candidates who serve as teachers of record while completing the approved program. These programs may be offered by an institution of higher education, a professional organization or a private service provider.

2. Teacher of record –

- i. Teachers that are responsible for content instruction and determining student grades, or
- ii. Administrators or other education service providers that perform the functions allowed by their program certificate area.

Approval of program – To be approved by the Rhode Island Department of Education an alternative educator preparation program must:

Notwithstanding language to the contrary within RIPA, any reference to institutions of higher education or colleges and universities shall be interpreted to include private service providers and other professional organizations for the purposes of this section.

Develop a partnership with one LEA or consortium of LEAs that demonstrates a commitment by the LEA(s) to hire and supervise candidates as teachers of record while enrolled in an approved alternative route to certification program.

Be designed and delivered in a way that is responsive to needs of candidates and LEAs through a measurable system of assessment as defined in RIPA.

Private service providers and other professional organizations do not require accreditation by NEASC.

Program Components – The RIPA approval process and the standards contained therein apply to both traditional and alternative educator preparation programs. Alternative certification programs must design program components that align to RIPA standards and must:

The pre-service experience must also include opportunities for candidates to apply knowledge and skills.

4. Include an on-going curriculum during the school year through seminars or courses.

5. Require individuals working on an Alternative Route Preliminary Certificate to serve as the teacher of record for a minimum of one school year.

Program and district personnel, including but not limited to a district-assigned mentor, consistent with Board of Regents' standards for induction and mentoring, must provide field-based support and supervision in such a way that supports the development of prospective educators. Ongoing feedback provided to candidates must focus on improving candidate performance.

Certification –

Individuals in alternative route to certification programs will hold an Alternative Route Preliminary Certificate that allows them to serve as the teacher of record for at least one school year.

Upon successful completion of all program requirements, state testing requirements and recommendation for licensure, individuals will be eligible for a Rhode Island initial educator certificate.

The Department of Education will review professional competencies and publish annual updated lists of competencies to be approved by the Board of Regents. Subject matter testing for all secondary grades and all-grades certificates is required. Knowledge of field testing for most administrative and all support professional certification areas is added. Testing is required of educators prepared in-state and those who were prepared or certified in other states who seek Rhode Island certification by reciprocity or credential review. Revised requirements for field experience are also detailed in this section. A passing score on the English Language Competency assessment is required for individuals enrolled at institutions in which the language of instruction was not English.

Chapter 7: Initial Routes to Certification

This section describes three routes to initial certification in Rhode Island - completion of an approved program, reciprocity, and credential review. The transcript analysis route to certification is eliminated as of 01/01/2015. A credential review process is established for certification areas in which there is no approved Rhode Island preparation program, and for certification as a superintendent of schools. Individuals seeking Rhode Island certification by reciprocity are subject to Rhode Island testing requirements. The Rhode Island Program Approval standards are the standards that are used to evaluate approved programs and these standards incorporate the Rhode Island Professional Teaching Standards, the Rhode Island Standards for Educational Leaders, and appropriate standards from professional associations for support professionals.

Chapter 8: Types of Certificates

This section describes the three-tier system of certification that is established for full certification in Rhode Island – Initial Educator, Professional Educator, and Advanced Educator certificates. The three-tier system replaces the current system of transitional and professional certificates. Certification renewal requirements and progression between the Initial, Professional, and Advanced Educator Certificates are based on local evaluation for active educators. One-year extensions of certifications are available as part of this process for individuals who are inactive for part of their certification period. Conditions are also established for the non-renewal of certifications for performance reasons. Testing requirements for subject matter and/or knowledge of field are added for all certification areas. The section also details several new Preliminary Certificates for individuals who do not meet requirements for full certification but meet specified competency levels to attain a Preliminary certificate as an educator while meeting full certification requirements.
